

MPEG4 & MJPEG Dual Band Series

CAS-633/W

Wired/Wireless IP Camera

- MPEG4 and MJPEG dual mode
- Support 3GPP, 2-way audio
- Megapixel, 30fps@QVGA, 30fps@QVGA, 30fps@VGA
- WPS button to setup wireless easily
- Powerful application software to monitor 16 cameras simultaneously
- Motion detection with email alert

CAS-861/W

Wired/Wireless IP Camera

- MPEG4 and MJPEG dual mode
- CCD Sensor
- 30fps@VGA, 30fps@QVGA, 30fps@QVGA, 30fps@VGA
- Day/night lens
- Powerful application software to monitor 16 cameras simultaneously
- Motion detection with email alert
- GPIO(RS-485)

MPEG4 Series

CAS-630/W

Wired/Wireless IP Camera

- MPEG4 and CMOS sensor
- 30fps@QVGA, 30fps@QVGA, 30fps@VGA
- Powerful application software to monitor 16 cameras simultaneously
- Motion detection with email alert

CAS-670/W

Wired/Wireless IP Camera

- Pan/Tilt function
- MPEG4 and CMOS sensor
- 30fps@QVGA, 30fps@QVGA, 30fps@VGA
- Powerful application software to monitor 16 cameras simultaneously
- Motion detection with email alert

MJPEG Series

CAS-330/W

Wired/Wireless IP Camera

- Motion JPEG and CMOS sensor
- 30fps@QVGA, 25fps@QVGA, 10fps@VGA
- Powerful application software to monitor 16 cameras simultaneously
- Motion detection with email alert

CAS-700/W

Wired/Wireless IP Camera

- Motion JPEG and CMOS sensor
- 30fps@QVGA, 30fps@QVGA, 30fps@VGA
- Powerful application software to monitor 16 cameras simultaneously
- Motion detection with email alert
- GPIO(RS-485)

CAS-370/W

Wired/Wireless IP Camera

- Pan/Tilt function
- Motion JPEG and CMOS sensor
- 30fps@QVGA, 25fps@QVGA, 10fps@VGA
- Powerful application software to monitor 16 cameras simultaneously
- Motion detection with email alert

CAS-771/W

Wired/Wireless IP Camera

- Pan/Tilt function
- PIR Motion detection
- Motion JPEG and CMOS sensor
- 30fps@QVGA, 30fps@QVGA, 20fps@VGA
- Powerful application software to monitor 16 cameras simultaneously
- Motion detection with email alert

About SparkLAN

Founded in 2002, SparkLAN is a Broadband Wireless Networking Solution Provider. SparkLAN 100% focus on wireless technology(802.11x), so we have a proven track record of taking leading edge technologies developed for the following solutions:

- **Embedded System:**
SparkLAN offer full spectrum of embedded module and Intel IXP turnkey solution. We have great relationship with Atheros and Ralink to access source code easily. We successfully help customer to design in STB, DVR, Mesh AP, KVM, Gamble machine, IPC, and consumer electronics.
- **Digital Home & SOHO:**
SparkLAN offer total wireless solution and deliver "affordable, easy to use, user friendly" solutions with entertainment options for the home and SMB markets.
- **Wireless ISP:**
SparkLAN well-experienced RD professionals (software & firmware) are capable of developing in robust & customized Hotspot AP, Outdoor AP, and Mesh AP. And we allow wireless internet service providers (WISP) to provide wireless high-speed Internet access to residential, business and roaming wireless customers.
- **IP Surveillance:**
SparkLAN's wireless IP Camera allow you to monitor home baby, kindergarten, day-care center, elders, pet, zoo, beautiful scenery, traffic situation report via 3G mobile phone or PC.

Our mission is to offer the users a total broadband wireless networking solution with triple play service that includes high-speed Internet access, voice and video streaming -all over Wi-Fi or IP network

SparkLAN offers comprehensive Wi-Fi networking and IP surveillance solutions, specifically catering to the Home, SOHO, SMB, and Telecom verticals. Over many years of dedicated experience in wireless networking industry, SparkLAN have been built up global distribution channel in retail, SI, telecom, and on-line shopping. We strive to strengthen and enlarge the business with partners and avail them excellent opportunity to capture their market in this growing industry.

Broadband Wireless Networking Solution Provider

- Digital Home & SOHO
- Wireless ISP
- Embedded System
- IP Surveillance
